

# ROUNAK PATHAK

Aspiring Data Analyst | Machine Learning Engineer | AI Developer

Email: rounakpathak9080@gmail.com • Phone: +91 8789355439 • Location: Pune, Maharashtra • LinkedIn: linkedin.com/in/rounak-pathak-765a25274 • GitHub: github.com/rounak-98

## PROFESSIONAL SUMMARY

Motivated Computer Engineering student at Bharati Vidyapeeth College of Engineering Pune (CGPA: 8.7) specializing in data analytics, machine learning algorithms, and AI development. Currently pursuing **Infosys Springboard Internship 7.0** developing an AI-driven Food Redistribution System while building full-stack applications (React, FastAPI, Django) and interactive EDA data science suites.

## CORE SKILLS

|                       |                                                                                                 |
|-----------------------|-------------------------------------------------------------------------------------------------|
| Programming & DB:     | Python, SQL, MySQL, JavaScript, HTML5/CSS3                                                      |
| ML & AI Concepts:     | Regression, Classification, Clustering, NLP, Deep Learning, Computer Vision, Prompt Engineering |
| Algorithms & Stats:   | Random Forest, XGBoost, SVM, Decision Trees, KNN, Naive Bayes, TF-IDF, NER                      |
| Frameworks & Web:     | FastAPI, Django, React.js, Flask, Streamlit, Gradio, Tailwind CSS                               |
| Libraries & BI Tools: | Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Matplotlib, Seaborn, Power BI, Tableau        |
| Tools & IDEs:         | Git, GitHub, VS Code, Jupyter Notebook, PyCharm, Spyder                                         |

## WORK EXPERIENCE

### AI Developer Intern | Infosys Springboard Internship 7.0

Ongoing (Virtual)

- Architecting and developing an **AI-Based Food Redistribution System** ([food-redistribution-ai.vercel.app](https://food-redistribution-ai.vercel.app)) for urban waste reduction and surplus inventory management.
- Engineering demand forecasting models, real-time inventory tracking, and intelligent donor-recipient matching algorithms.
- Built full-stack workflows using **React.js, FastAPI (Python), MySQL, Tailwind CSS, Pandas, NumPy, Scikit-learn, and Streamlit**.

## FEATURED PROJECTS

### AI-Powered Food Redistribution Platform | React.js, FastAPI, Python, MySQL, Tailwind CSS

Live Site

- Built a full-stack AI platform connecting surplus food donors with local NGOs; features async FastAPI backend, real-time claim alerts, and food waste reduction analytics. ([food-redistribution-ai.vercel.app](https://food-redistribution-ai.vercel.app))

### AI-Powered EDA & Data Analytics Suite | Python, Streamlit, Pandas, Scikit-learn, Power BI

GitHub Repo

- Developed an automated data analytics platform performing correlation profiling, outlier detection, and AI-driven summary insights.

### BizzApp - Smart Business Management Application | Django, Python, MySQL, JavaScript

Live Site

- Engineered an enterprise web application for inventory control, customer quotation processing, GST invoicing, and revenue analytics. ([bizzapp.onrender.com](https://bizzapp.onrender.com))

## EDUCATION

B.Tech in Computer Engineering | Bharati Vidyapeeth College of Engineering, Pune

2023 – 2027 | CGPA: 8.7

Saint Francis School | 12th Standard (Science, CHSE): 80.4% • 10th Standard: 93.0%

2021 – 2023

## CERTIFICATIONS & HONORS

- Infosys Springboard:** 16 AI & Data Science Certifications (Generative AI, Prompt Engineering, Deep Learning, OpenAI GPT)
- NPTEL (IIT Kharagpur):** Introduction to Machine Learning (Elite Academic Certification)
- NPTEL:** Database Management System (DBMS) • **Naresh IT:** Full Stack in Data Science & AI

## LANGUAGES KNOWN

- English (Professional) • Hindi (Fluent) • Marathi (Fluent)
